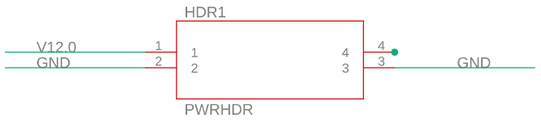
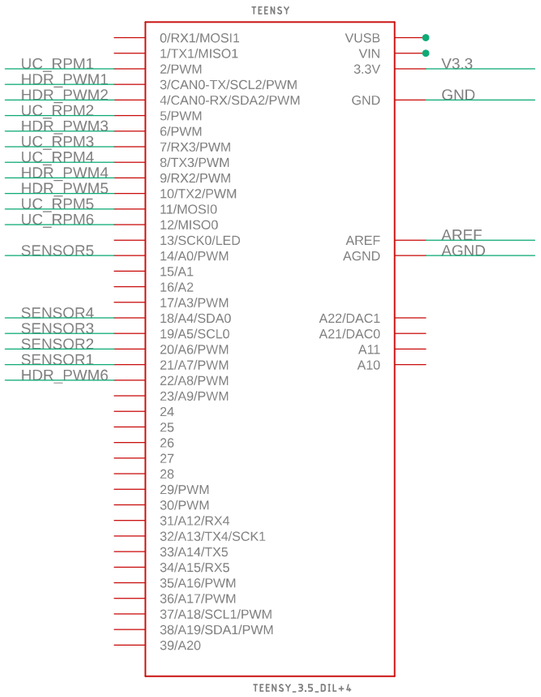
ATX 4pin power header/connector



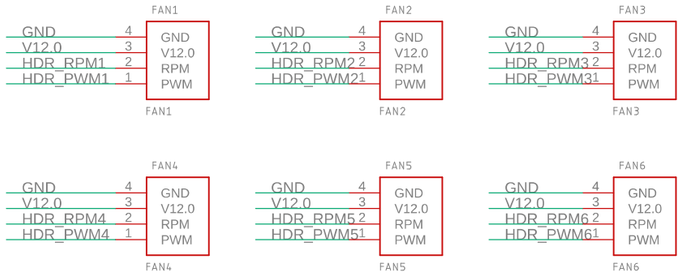
Teensy 3.x header
(also compatible with Teensy 4.0)



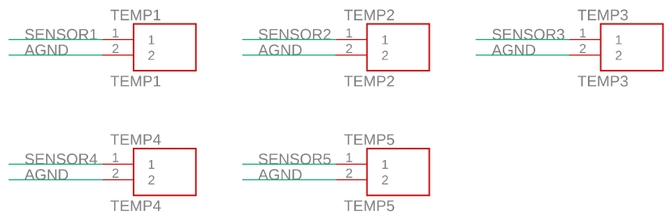
Short to connect V3.3 to AREF

Header to connect GND to AGND
(not needed in practice?)

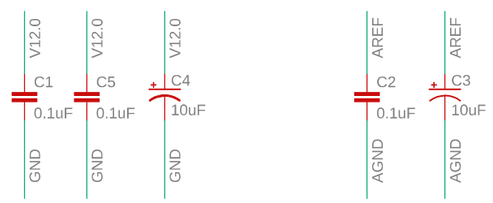
Fan headers



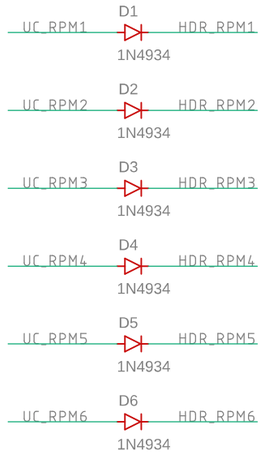
Thermistor sensor headers

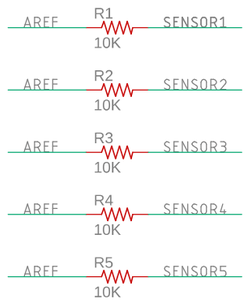


Decoupling capacitors



Fan RPM signal diodes
(incase fans have own pull-up resistors)





Equivilent series resistors for thermistors
(1% resistors, same resistance as thermistor nominal resistance)
